Jim, getting ready for your trip you may not have noticed that the Creeps are also using the Archives as a means of suppression, by giving their secret papers to the Archives for the as yet non-existent Nixon Library. They have been accepted and Rhoads may go to court to keep them secret, as with me and the things "given" to the Kennedy Library. Looks a little as though DJ counselled the Creeps. They could have hoked this up on their own, but I think it more likely they received a suggestion. It would be great to get this into court. I hope Common Cause demands the contract without which there is no protection even if this were legitimate. Be a nice switch, this getting into court now. Put DJ on both sides, with a nice conflict of interest. Do you know Rogovin or any of that bunch? HW 4/26/73
